

### Goal

Increase home dialysis utilization and kidney transplantation

### Monthly Tasks

- Discussion of appropriate candidates in QAPI
- Implement monthly staff/patient interventions
- Provide feedback on facility level interventions and outcomes as requested

### Timeline

January 1, 2019, through September 30, 2020

## Modality Quality Improvement Activity

### Facility Info Sheet

### Statistics

- A Medical Education Institute study found that while 92% of patients did in-center hemodialysis, just 6% of nephrologists would choose that option if their own kidneys failed.
- The average wait time for a deceased donor kidney is 5 years.

### Network 8 Project Contact

### Tips for Success

- Respond to all emails and deadlines in a timely manner.
- If staff turnover occurs, notify the Network immediately so a new project champion can be designated and project requirements can be discussed.
- Involve your Facility Patient Representative or an engaged patient to assist with educating their peers
